Continue reading "The T Pain Effect Bundle"→ This paper uses data from the 99th and 100th birthdays of President Warren G. Harrison (1852–1918) and first lady Lucy Bainbridge Harrison (1854–1893) to explore beliefs about the after-life in nineteenth-century America. It begins with an overview of Harrison-era notions about immortality and concludes with two case studies of an Ohio minister and a Georgia widow, both of whom died shortly after Harrison's death. The analysis revealed that the efficacy of traditional religious beliefs for the vast majority of people in nineteenth-century ... Findings of fact by the district court that ... Innocence in the Age of Catastrophe: The Rise of the Self-Righteous White Peril, 1847–1907. by Joseph E. Persico. Introduction by Carl Schmitt. New York: P.R. Plus., 2006. xii, 536 pp., price \$80.00. ex-Library. In Innocence in the Age of Catastrophe, Joseph E. Persico offers a radical new way of dealing with the question of American political evil. More than most contemporary scholars, Persico knows how to contend with the messy side of history, the painful side. Persico's thesis may seem incredible to those of us who see the United States as a beacon of freedom and justice, but his broad survey reveals a great deal about the making of American political culture—about its conception of government, its ideals about the nature of human rights, its professed ideals about freedom and equality. What emerges is a dangerous vision of history as a trajectory toward, rather than away from, the certainty of the American nation's superiority over other nations, of the greatness of its race over others. Indeed, perhaps the most disturbing aspect of the book f678ea9f9e
